Prof. W. B. Plank
Lafayette College
Easton, Pa.

Dear Sir:

Awhile ago Dr. Kunz of Tiffany and Company called me up and asked if we could make a set of rubbings of our Lafayette Medals for you. We have about twenty of these and attempted to make some rubbings, but they were far from satisfactory, as a number of these pieces are in very high relief. The only thing we could do is to have photographs made. These probably could be done on two or three negatives, which would cost us about $2.00 each. Would you care to have these done this way? If you care to have the reverses of these medals there would be twice as many negatives.

Very truly yours,

HW:JG

Curator
